*eel Time* is elegant, chic and contemporary. As the collection's name suggests, the overall theme is inspired by elements and colors from the film industry. The color scheme presents appealing contrasts between muted neutrals and brights like warm orange and a fresh olive green, rounded out by small accents in denim blue and coral red.

As is desirable in any patchwork collection, this line covers the entire bandwidth of a collection: There are large prints, which can stand alone, such as the large abstract camera lenses, and the very popular typescript "Closing Credits". The medium format, multi color and bicolor prints feature patterns and shapes inspired by TV screens, film strips, and movie reels. The small-sized and quieter accompanying fabrics play with symbols, points and dots in various sizes and order.

Play with graphic prints and the timeless black-and-white basics, add sparkling brights and create a one-of-a-kind urban quilt!
