

# EXPLORE

As life gets busier and more stressful, many of us - including our family - have come to cherish spending time with nature. Hiking, canoeing and simply relaxing by being outside surrounded by nature is something we look forward to.

This "outdoorsy" collection features icons found while enjoying nature: trees, water, mountains, pinecones, cabin and even kayaks. Whether canoeing on a river or relaxing on a lake, I hope Explore will inspire projects that remind you of your adventures in the great outdoors!

# DESIGNER TRIVIA

## DEB STRAIN

**First collection** – Welcome to My Garden & Friends in 1996. I had two debut at the same time!

**First time you saw your name on the selvage** – Thrilled beyond words!

**Favorite Quilt Market memory** – There are so many! I love dancing at the Moda parties where I can't embarrass my adult children with my dancing! I loved taking my Grandmother to Fall Market in Houston to show her my fabric. It's been a thrill to see the size of the Moda booth grow, and it's a treat to see so many friends twice a year. My most favorite Market memory was seeing the timeline quilt Josh Dunn made for Moda's 40th Anniversary listing the current designers and how long they had been with the company.

**Favorite pre-cut** – The Layer Cake.

**Years sewing and quilting** – I've been sewing since I was about 10 and was in the Busy Bees 4-H Club. Quilting? I love quilts and sewing but I haven't made a quilt yet... maybe one day.

**Who taught you to sew** – My Mom and Mrs. Prosser, my Busy Bees 4-H Advisor.
