Imagine a starry sky where flowers bloom in the moonlight and your favorite forest friends scamper through the trees... that is the inspiration for Nocturnal.

You are going to fall in love with the moody florals, the trotting foxes and roaming bears, all painted in the perfect colors for this imagery. The delightful panel features my signature animal illustrations - mix it with the prints, or use them on their own. The projects we've created for Nocturnal are brilliant, from a patchwork owl to a modern sunlit sky.

Nocturnal will have you longing to take your quilt into the moonlight, laying beneath the stars, and enjoying the beauty of a nocturnal world.
